[redacted] San Jose, California, telephone number [redacted] was interviewed:

[redacted] advised that he had been an acquaintance of [redacted] for many years, both in San Jose and in the Los Angeles, California area. He stated that on several occasions, he had assisted [redacted] and had loaned him money in the past.

b6
b7C

He stated that only after it was clear to him that [redacted] was not going to repay him money for which he had previously provided, did he make an effort to retrieve his funds through the Bankruptcy Courts and is making this information available to the FBI.

b6
b7C

He stated that in his own mind, he is certain that [redacted] is in fact the individual known to the FBI as D.B. COOPER.

b6
b7C

He stated that he and [redacted] had discussed this matter on many occasions and [redacted] advised him that the amount taken in this hijacking was \$204,000. He further advised during conversations with [redacted] in the past, he indicated that his goal in life was to commit the perfect crime, one in which the statute would toll, and then he would spend the money and be free.

b6
b7C

He stated that prior to the hijacking incident, [redacted] took skydiving training, to include a considerable amount of night skydiving. He stated during one training mission, [redacted] hit a tree at night and knocked his teeth out requiring a considerable amount of denture work.

b6
b7C

[redacted] stated that he temporarily lost contact with [redacted] and learned that in about June, 1973 he [redacted] went to Canada. He stated [redacted] re-appeared in 1975, looking emaciated. He stated that it was very difficult to recognize [redacted] from the time he left for Canada and when he returned.

He stated that he had also learned that [redacted] has some savings connection or affiliation with the Toronto Dominion Bank, Toronto, Canada, and that he had been receiving monthly or by-weekly stipends from the Toronto Dominion Bank. He stated that if calculated, the checks received by [redacted] from the Toronto Dominion Bank would amount to approximately 5 per cent of \$200,000 or the interest, which would be drawing on a large sum of money at the Toronto Dominion Bank.

[redacted] stated that a comparison of the composite photograph made available by the FBI and [redacted] is practically identical. He stated that [redacted] today does not appear similar to the composite because of his drastic physical appearance change upon his return from Canada, but that he [redacted] has photographs of [redacted] prior to his travels to Canada in which a comparison would readily show a very strong resemblance to D.B. COOPER.

hijacking and stated he would cooperate fully with the FBI's investigation. [redacted] claimed he was employed as [redacted] by Abco Chemicals in Colorado Springs, Colorado, and worked the entire day of November 24, 1971, in that capacity. [redacted] could not recall any specific contacts he made, stating he left [redacted] Colorado Springs, about 9:00 a.m. and then returned about 4:00 or 4:30 p.m. [redacted] advised that he was required, as part of his employment with Abco, to submit at the end of each week to Abco headquarters, in Irwin, Pennsylvania, records containing dates and names of persons contacted in Colorado Springs, during the previous week.

b6
b7C

Investigation at Colorado Springs, Colorado, revealed [redacted] resided with [redacted] Colorado Springs, from September 16, 1971, through January 11, 1972. [redacted] maintained checking and savings accounts at the Academy Boulevard Bank, Colorado Springs, but no significant account activity noted with the exception of \$1,200 deposit on December 30, 1971. There was no safety deposit box rented at that bank by [redacted].

b6
b7C

[redacted] of the [redacted] Colorado Springs, advised after viewing the artist's conception of UNSUB in this matter, stated that in her opinion it did not resemble [redacted].

b6
b7C

A copy of [redacted] weekly reports were obtained from Abco, Inc. in Irwin, Pennsylvania, and attempts by Agents at Colorado Springs, Colorado, to verify [redacted] location on November 24, 1971, proved negative in that some of the addresses listed were not valid and others, although valid, personnel at the various locations could not remember [redacted].

b6
b7C

On September 5, 1972, NORJAK eye witness [redacted] stated after viewing a photograph of [redacted] that he was not identical to UNSUB in this matter.

b6
b7C

SE 164-81

In view of the apparent discrepancy between [redacted] age at the time of the hijacking, i.e. [redacted], and the age UNSUB was thought to be at the time of the hijacking, that of approximately 45 years old, no further investigation will be conducted concerning [redacted] at this time; however, should any new information come to the attention of the San Francisco Division, which would indicate that [redacted] should be reinvestigated as a suspect in this matter, San Francisco is directed to advise Seattle of this new information and conduct investigation deemed appropriate.

On November 24, 1971, Northwest Airlines Flight 305 Portland, Oregon to Seattle, Washington was hijacked by a white male, mid-forties, 5'10" to 6'0", 170 to 180 pounds, olive complexion, Latin appearance, dark brown or black hair. On arrival in Seattle, the hijacker demanded and received \$200,000 and parachutes and the aircraft departed Seattle headed in a southerly direction and the individual parachuted from the aircraft.

Extensive investigation since the incident in November, 1971 has failed to identify or locate the subject.

During January, 1977, [redacted] Attorney at Law, San Jose, California, advised that during conduct of [redacted] investigation, the name [redacted] came to his attention. He stated [redacted]

[redacted] He stated during his investigation, an individual named [redacted] [redacted] came to his office and advised that [redacted] had funds in the Toronto Dominion Bank, Toronto, Canada. He stated [redacted] further advised that he believed that [redacted] was one in the same of an individual who hijacked a Northwest Airlines Flight 305 in November, 1971, later known as D. B. Cooper.

[redacted] stated he confronted [redacted] with this allegation and [redacted] denied any association with the incident and stated that the FBI had previously exonerated him from the act.

[redacted] San Jose, California, b6 was interviewed and confirmed information provided by [redacted] b7C and was confident in his own mind that [redacted] bore a striking resemblance to the subject who hijacked the aircraft.

He advised that he had been close friends with [redacted] and [redacted] indicated on several occasions that he was interested in committing the perfect crime. He further confirmed the information he had concerning banking at Toronto Dominion Bank, Toronto, Canada, and in fact, [redacted] had received funds over the years which, if totaled, would have amounted to in excess of \$200,000.

b6
b7C

[redacted] stated he was aware of the fact that [redacted] had been previously interviewed by the FBI, but he stated that photographs, the fact that [redacted] was an expert paratrooper, and had done considerable night diving prior to the hijacking, led him to believe that [redacted] was, in fact, identical to the hijacker.

b6

It should be noted the [redacted] was, in fact, interviewed by the FBI, Los Angeles, California, in February, 1972. Further review of records available, San Jose, Calif., indicate that [redacted] opposed to [redacted] as reflected in Seattle communication, 4/21/77. In view of this fact, the age at the time of the commission of the crime would be more close to the suggested mid-forties age of the hijacking.

In view of the adamant feeling on the part of [redacted] and the discrepancy in the age as reflected in Los Angeles interview, 2/9/72, and information available San Jose, Calif., reflecting he is, in fact, [redacted] it is believed that a reinterview of [redacted] and providing him an opportunity to take a polygraph examination would be appropriate.

RE: [Redacted]

Re San Francisco airtel to Seattle dated 9/12/77 and Legat, Ottawa, letter to the Bureau dated 10/11/77.

For the information of the Bureau and Legat, Ottawa, on August 18, 1977, [Redacted] was interviewed in Cupertino, California. He initially consented to answer questions, but later declined based on the advise of his attorney. Prior to terminating the interview, [Redacted] advised that he would be willing to assist in any way in this investigation and would consent to taking a polygraph examination if desired.

[Redacted] has been thoroughly investigated in this matter, however, his exact location on November 24, 1971, is unknown. During that week he supposedly was in Colorado Springs, Colorado, working for Abco, Inc., [Redacted]. However, a review of his daily [Redacted] reports indicate numerous fictitious contacts in that the establishments do not exist or the persons contacted do not exist and all those institutions contacted which were listed and could be identified denied knowing [Redacted]. It was thought at the time the daily reports were reviewed that [Redacted] was merely falsifying his daily report to cover up non-work related activities or that his daily reports which were made up by [Redacted] after the fact were simply not accurate because of [Redacted] poor memory.

All family or possible suspects contacted should be advised that this is merely another investigative step following advancement in technologies. No mention of the recovery of DNA evidence should be made. Care should be given so persons contacted are not lead to believe that they or their family member are a suspect of great interest in this case. Unless specifically requested in lead, no interviews are needed at this time, other than appropriate FD-302 to document DNA samples. Media discussions should be avoided. Refer any media inquiries without comment to the Seattle Media Coordinator, SA [redacted] at [redacted]. Any follow up leads to obtain these samples should be set by receiving offices with a copy to Seattle.

If anyone is uncooperative with this process, advise Seattle.

Phase II unresolved suspects:

1. JASON T. LANGSETH (SUB 327) SSN 525-52-5941 DOB 8/3/1934
****Caution - May Be Uncooperative Due to Prior Contact With FBI****

98584 Last known address: 905 Fogarty Ave, Shelton, Washington (10/2003)

LANGSETH was originally identified as a suspect based on information received from two individuals. He resembled UNSUB at the time, has military jump experience, and reportedly discussed committing the "perfect crime" prior to the hijacking. LANGSETH was only partially cooperative during his interviews in 1972 and 1977, and uncooperative when contacted in 1979 and ultimately refused to answer further questions or take a polygraph examination. Alibi information he provided concerning his work activities and travel during November 1971 was proven at least partially false. He was last contacted in January 1979 while living in Campbell, California. Following that contact, LANGSETH retained an attorney and refused a polygraph. In 1993, LANGSETH was again identified as being the UNSUB by an another associate who had viewed an "Unsolved Mysteries" segment about this case. Contact Seattle Case Agent if further details are desired.

Due to the passage of time, it is possible that LANGSETH will now cooperate with a DNA sample.

Specimens:

The specimen listed below was received in the DNA Analysis Unit I:

K2 Buccal swab from JASON T. LANGSETH

This report contains the results of the DNA analyses. The results of additional FBI Laboratory examinations are the subjects of separate reports.

Results of Examinations:

Deoxyribonucleic acid (DNA) was isolated from specimen K2 (LANGSETH) and subjected to DNA typing by the polymerase chain reaction (PCR) at the amelogenin sex typing locus and the nine (9) short tandem repeat (STR) loci of the AmpF[®]STR[®] Profiler Plus[™] ID PCR Amplification Kit. The DNA typing results are detailed below.

AmpFSTR® Profiler Plus™ ID

SPECIMEN	D3S1358	vWA	FGA	D8S1179	D21S11	D18S51	D5S818	D13S317	D7S820
K2	14, 15	17, 18	18, 25	13, 13	30, 31	14, 16	11, 12	8, 9	10, 10

The STR typing results from specimen K2 were compared to the STR typing results from specimen Q40/Q41 (combined for analysis) [submitted under FBI Laboratory Number 010904012 HL MD and reported in FBI Laboratory report dated April 2, 2002]

Based on the STR typing results, specimen K2 (LANGSETH) is excluded as a potential contributor to the mixture of DNA obtained from specimen Q40/Q41.

No other DNA examinations were conducted.

Remarks:

Upon completion of all the requested examinations, the submitted items will be returned to you under separate cover. In addition to the evidence in the case, any remaining processed DNA from specimens examined by DNA analysis will also be returned to you. The processed DNA can be found in a package marked PROCESSED DNA SAMPLES: SHOULD BE REFRIGERATED/FROZEN. It is recommended that these samples be stored in a refrigerator/freezer and isolated from evidence that has not been examined.
